## ECEC Newsletter 08 July 2012

### Dear colleagues!

During this hopefully relaxing and refreshing summer period let me already point out a few things that will be important for the ECEC in the coming months:

First of all I would like to stress the importance of the World Engineering Forum taking place in Ljubljana from 17 to 22 September 2012. The event offers not only a wide range on interesting speeches on a topic that is the base of Engineering work but also a very important opportunity to connect with colleagues from all over the world. Let us all make best professional and personal use of these possibilities: <http://www.wef2012.si/>

Secondly I would like to remind you that at the next General Assembly in Vienna on 17 November 2012 elections will take place. These will be the first elections under the new rules of procedures we have adopted. We intend to send a reminder of the most important points and detailed information in the first half of September.

### ECEC INTERNAL RULES OF PROCEDURES – some important points on elections

Candidates for elections have to send curriculum vitae (CV) and a letter of nomination from the member organisation to the Secretary General until 5 weeks before the elections take place.

It must be clear for which position the candidate is nominated. It has to be clarified, if the candidate is nominated for another position (other positions if he is not elected for the chosen position).

These CV and letters of nomination have to be made available to all member organisations four weeks before the General Assembly meeting.

Only if there is no candidate for a certain position, it is possible to propose a candidate in the General Assembly meeting.

Elections are written and secret. If there is only one candidate for a position the General
